

# Leonardo Antero S.P. Yoro

## FULL-STACK DEVELOPER (LLM & API INTEGRATION)

Pleasant Hills, Mandaluyong 1550, Philippines | yoroleo10@gmail.com | +639283525919 | [LinkedIn](#)

### PROFILE

Junior Software Engineer and BS Information Technology student with hands-on experience in full-stack development, back-end systems, and AI-assisted applications. Skilled in Python, JavaScript, PHP, SQL, and modern web frameworks, with exposure to OCR, LLM integration, and Docker. Experienced in building web applications, integrating APIs, managing databases, and deploying production-ready systems, with a focus on leveraging AI and automation to develop efficient and intelligent solutions.

### ACCOMPLISHMENTS

- Designed and deployed an AI-driven chat summarization system during internship, including Docker-based deployment, improving task tracking and data retrieval efficiency.
- Led the ARK Capstone Project, implementing GPT-powered semantic search and AI-driven recommendation systems for academic resources.
- Contributed to full-stack development and multi-branch collaborative projects using Git/GitHub, improving system performance and team coordination.

### SKILLS / TECHNICAL PROFICIENCIES

**Backend:** PHP, Python, Java, Node.js, REST APIs  
**Frontend:** HTML, CSS, JavaScript, React.js  
**Database:** SQL, MySQL, ChromaDB  
**AI / ML:** LLMs (GPT, Qwen), NLP, RAG, Prompt Engineering, BERT  
**OCR / Vision:** Tesseract, EasyOCR, PaddleOCR  
**Frameworks:** Flask, Laravel  
**Tools:** Git, GitHub, Docker, Linux  
**UI/UX:** Figma  
**Data / Formats:** JSON  
**Automation:** Email Automation

### PROFESSIONAL EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                             |
